LETTER OF ESTABLISHMENT

MANTHAN- THE ANNUAL COLLEGE MAGAZINE YEAR OF ESTABLISHMENT: 2017-2018

'Manthan' means 'churning'; it comes from the Indian mythology of '*Samudra Manthan*' where the gods and the demons churned the deep cosmic ocean on the back Lord Vishnu's second *avatara*, the *Kurma Avatara* (a giant turtle), using Mount Mandara as the churning rod and the serpent Vasuki as a rope to churn the nectar of immortality.

Manthan metaphorically represents the churning for knowledge, awareness and insight after deep thinking and reflection.

The college magazine, *Manthan*, has been established in the year 2017-18 with the aspiration of giving young minds of Fr. C. Rodrigues Institute of Technology, a safe space to express their creative art, thought, culture, and their reflections on their experiences through their college life. All students are invited to present their ideas in the magazine. Articles/Creative art work is printed in the hard copy only after due diligence and processing done by the editorial team.

Manthan, is a respectful space which allows for freedom of expression with the awareness of the duty of accountability, responsibility of self and dignity of others.
