Campus Credential
Proposal

Campus
Credential

Campus Credential has been in almost all engineering colleges for trainings, seminars and workshops. It has the best placement records in Mumbai and covers almost 80% of all engineering colleges in Mumbai. Our offering include MBA exams preparations, abroad study exams preparation, other competitive exams preparation including government exams, online assessments, campus recruitment training, communication skills, leadership and management skills, profile analysis and counselling, etc. We have a wide plethora of options to choose from and have been very successful in our process because we believe in the philosophy of students before profits. Spreading the right knowledge is more important than irrelevant or wrong knowledge. So we conduct seminars in Mumbai colleges to spread the understanding we have to the students who will be our future.

Our Seminar Offerings

We have 5 different types of seminars that we provide. You can choose any one of them as per college requirements. Each seminar is for 2-3 hours. The details of each type of seminar is as follows:

Leadership and Management Skills

(Please note you can choose at the most two topics of the ones given below for the seminar.)

a. **SWOT Analysis:** The students will understand with the help of a psychometric test what their strengths and weakness are and how to identify their opportunities and threats. This will give them in depth knowledge about their skills which is highly accurate.

b. **Goal Setting:** Understanding short-term and long term goals. How to understand what your goals are and how to take pro-active steps so as to fulfil those goals? Learning how to set new goals and be committed to your goals. The students will get a clear perspective in understanding to plan and execute their goals.

c. **Change Management:** Change is the only constant thing in this universe. But a lot of people are not that receptive to change and prefer to stay in their comfort zones. This seminar will teach the students not to be afraid of change and how to adapt and handle change?

d. **Emotional Quotient:** Emotions are something that we all have and there are many types of these emotions that we possess. Understand just your emotions is not enough; you need to understand other people emotions and give appropriate responses. This is called emotional intelligence and is big part of managing people and is an integral part leadership.

e. **Positive Attitude:** At a time when negative comments, backlash and trolling are a norm, it becomes very difficult to maintain positive attitudes. Here the students will understand how to be positive even in the worst case scenarios.

f. **Decision Making:** A very important task of a leader is decision making. Decision Making is the thought process of selecting a logical choice from the available alternatives. Making decision is a part and parcel of life and everybody has to do it. But some people make better decisions and others don't. The students will understand how to become good decision makers and how to use these skills to become better leaders.

g. **Problem Solving:** Everybody has problems and we need to solve them constructively. The students will learn how to handle problematic situations, how to think creatively and how to neutralise it?

h. **Confidence Building:** A confident person is more comfortable with himself. Confidence creates a sense of security in a person that allows them to achieve anything they want. 90% of HRs agree that confidence is the first priority in any job selection. So students will learn strategies to develop confidence and how to maintain it?

i. **Analytical Thinking:** Analytical thinking is a critical component of visual thinking that gives one the ability to solve problems quickly and effectively. It involves a step-by-step approach to thinking that allows you to breakdown complex problems into single and manageable components. So students will learn analytical thinking methods and application.

j. **Time and Stress Management:** Time and stress management are two key components to succeed in life. Creating a system to identify, evaluate, and eliminate distractors and stressors will lead to a more productive and efficient life, inside and outside work. Students will learn to handle stressful situation and also managing their time effectively so

...it they can be more productive and stop procrastinating.

- **Self-Motivation:** Self-motivation is the force that pushes us to go on. It's our internal drive to achieve, produce, develop and keep moving forward. When you think you are ready to quit something, or you just don't know how to start, your self-motivation is what pushes you on.

l. **Team Work:** Team work is something that every individual has to do all throughout their life. The students will learn how to be better team players and how to manage and function as a team without losing your identity.

m. **Business Communication & Etiquette:** Business communication will include email writing, SMS writing, report writing, etc. The students will also learn what are the basic business etiquettes?

n. **Email & Telephone Etiquette:** Email writing is a major part of any business. Email is the way to share information with clients and co-workers. So understanding how to communicate via email is very important. Telephone or mobile phones have become the basic necessity of man, but we have failed to understand the etiquettes to be used while doing so. The students will learn the basics of both and how to use it to their advantage.

o. **Body Language & Grooming:** 80% of our communication is done non-verbally and body language is a major part of it. The students will learn how to effectively communicate through body language and avoid giving the wrong signals. Grooming is something that we need to pay attention to when we are professionals. Students will learn the basic grooming tips.

p. **Conflict Management:** Conflict management is the ability to identify and handle conflicts sensibly, fairly and efficiently. It is the process of eliminating the negative aspects of conflict while increasing the positive aspects of conflict. The students will learn negotiation skills, people management skills and also problem solving skills.

2. Entrance Exams Overview

Entrance exams have become a pre-requisite in almost every instituted for admissions, for landing a job, government jobs, professional courses, etc. So in this seminar we will give an overview about the following:

a. Career and higher studies option after 12th std. or Graduation

b. Different types of MBA exams and how to prepare for them

c. Different exams to study abroad and how to prepare for them

d. Different government exams (like UPSC) and how to prepare for them

e. Different banking exams or job-oriented exams and how to prepare for them

This overview will help the students get a proper perspective about what all options they have and they can make informed and focused decisions based on the same.

3. Online Free Assessment

Online aptitude tests are there in almost every company for jobs and in every institute for admission. With our very own platform (http://campuscredentials.com/TestCentre),.we can test the students in one test as to give them a chance to understand how effective their skills are right now and how much efforts and preparation they will need to crack any of the exams. We will give them ID and password to give the test and they will be provided with in depth analysis and results to make them evaluate their skills effectively.

(Please note: For conducting online assessments in the college we will need a computer lab big enough to accommodate the registered students. You will also have to provide student data beforehand so that we can generate user IDs and passwords for the same.)

4. Profile Analysis & Counselling

Students seldom understand their capabilities and skills and what they need to do to in terms of career so as to utilise those skills most effectively. They have a very impressionable mind and seldom understand what they want and what they are good are different. So we conduct profile analysis and counselling for the students to help them better understand their capabilities and deciding the right options in terms of further studies or job. The students profile is analysed and then based on that they are given option of how to build their profile so as to better their chances of landing the job or the getting that admission call which they are inclined towards. Building a good profile is half the job done in most cases and we are here to help the students in the best possible way to achieve this.

CC

(hereinafter called "CC") which expression shall include its successors and permitted assignees established in 2007 as a proprietary firm and registered office at 10/B, Mohini Mansion, Behind Anand Talkies, Thane (E), Maharashtra, India.

About CC

One of the basic reasons for studying and doing additional courses is to land a satisfying job. With the competition building, it has become more and more difficult to crack interviews. CC understand this need and are providing top notch Campus Recruitment Training (CRT) programs that provide the necessary push required for students to gain an edge over others. CC provides the complete A to Z to students to increase their competency and potential to land their dream jobs. The modules are designed to meet different corporate requirements, and they are also frequently restructured to keep pace with the changing recruitment scenarios. CC provides meticulous training in quantitative, verbal, logical reasoning as well as other soft skills that form the basic requirement for functioning efficiently in any corporate industry.

About Fr.CRIT

Fr.CRIT situated at Vashi,Navi Mumbai-400703 an institute established in 1994 by the Agnel Trust. Fr.CRIT has, within a short span of time, established itself as a leading engineering college in Mumbai University. Though its reputation rests mainly on the high quality, value-based technical education that it imparts, it has to its credit a verdant, well-maintained Campus and extensive facilities. Its location in the vicinity of the holy places of various religious denominations underscores its secular credentials and its philosophy of "Vasudhaiva Kuttumbakam". The college prides on being one of few that as accreditation for three branches vide F.No. 28-41-2010-NBA dated 18/12/2018

OBJECTIVE OF MOU:

The objective of this memorandum of understanding is

    a)   To promote interaction between Fr.CRIT and CC in mutually beneficial areas.

    b)   To conduct seminars and different training modules as a part of Campus Recruitment Training (CRT) Programs.

Once MOU is initiated by the signing of the draft between the parties, it will be valid up to 4th April. 2020 for conduction of seminars and different training modules for students of Fr.CRIT. The MOU draft, which will describe in detail:

A) CC conduct seminar on the topic "**How to approach Placement Process**". The seminar includes an introduction to the current selection procedures of top companies, what the HR professionals look for in a candidate, and what kind of students manage to land their dream jobs.

B) CC will cover following training modules to students of Fr.CRIT:

❖ Communication Skills
❖ Aptitude/Psychometric Tests
❖ Building a good resume
❖ Group Discussions (GD)
❖ Personal Interviews (PI)
❖ Student Profiling
❖ Case Studies Assessment

In addition, CC will elaborate introduction to the top companies and will provide information about the ideal profile and what skills and attitude are expected at specific corporations. Further the session covers the following points:

❖ Changing patterns in selection and requirements
❖ How to Prepare for Aptitude Tests
❖ GD Skills: personality, leadership & team traits that may be latent but need to be demonstrated
❖ Personal interviews: types, purposes, freak variations
❖ Leveraging the CV in an interview, designing the CV with relevant information
❖ Self-analysis for choosing industry/company and demonstrating suitability in the PI
❖ Strengths, weaknesses, future plans, interpreting your history
❖ Demonstration through various live interviews and analyses, of the difference in preparation for different types of CVs
❖ Choosing of a career v/s a job
❖ Different areas of preparation- subject, company, industry trends, current affairs, etc.

16	Group Discussion + Resume
17	Personal Interview Training

Post the training every student gets an individual login id and password for an online Test Series consisting of 30 tests.

Training duration:

Option 1:

30 hours (Lead trainer will teach at least 70 percent syllabus himself while rest is taught by other faculty members from his team). Here we give guarantee of not taking a single rupee of fee, if the feedback is not good since we collect our fee from the college after the entire training is done. We are the only institute to vouch this. We are training students from your college since last 2 years and the student conversion and feedback has been great.

Option 2:

40 hours, where we follow patterns like other training institutes where faculty members train but the lead trainer takes only one lecture to market his institute.

We suggest option 1 but the choice always rests with the institute.

The fee will be Rs. 2500/- per Student in whichever case you choose.

Dear Sir,

SmartWayz and CPLC impart formal training to their students on all the facets of job assessments like Aptitude Tests, Group Discussions, Personal Interviews, etc. to sharpen their industry-relevant skill sets. This training makes them ready for competition when they sit for the company processes on or off campus.

We have already trained engineering students in Mumbai in colleges like,

1. Thadomal Shahani Engineering College (TSEC)

2. Rajiv Gandhi Institute of Technology (RGIT)

3. Watumull College of Engineering, (Worli)

4. Lokmanya Tilak College of Engineering (LTCOE)

5. Vidyavardhini College (VCET), Vasai

6. St. Francis Institute of Technology (SFIT), Borivali

7. SIES Institute of Technology, Nerul

8. Vasantdada College of Engineering (PVPPCOE)

9. Pillai's College of Engineering, Panvel

10. Thakur College, MCA Department

11. Indira Gandhi College of Engineering

12. Terna College

13. Don Bosco, Management Divison

14. Vidyalankar College

15. Fr. Agnel, Bandra

The content for the entire training module is mentioned below (24 hours).

Session No.	Session Details	Duration in Hours

PROFIT AND LOSS

The placement lecture on the topic 'Profit & Loss' was conducted by Sriram V.B and Ashitha Anna J Santhosh

The lecture was conducted for seniors as (fourth year students) as well as for juniors (third year students).

The topic covered around 12 questions including topics of Profit Percentage, Loss Opercentage, Cost Price, Selling Price calculation.

PLACEMENT LECTURE (Sem - VII)

PERMUTATION & COMBINATION

(Snehal & Franie)

The placement lecture on 'Permutation & Combination' for semester VII EXTC was held on 11th Aug, '15.

The basic concepts of PnC were covered by Snehal which include definition of permu definition of combination, their differences, their applications, arrangement, dearrangem and circular permutation.

The higher level concepts were coverd by Francis which included special cases of permutation, special cases of combination for both identical and non-identical objec Also, cases with a combination of both identical & non-identical objects together were explained.

5 questions were covered in the basic concept section and 6 questions in the higher level section. Additionally, 7-8 problems of mixed difficulty level were then given to the students to solve.

MIXTURES AND ALLEGATIONS

The placement lecture on the topic 'Mixtures And Allegations' was conducted by Kanika Wadhwa and Aashitha Ann Santhosh on 26/8/2015. We had given the students 10 questions, starting from easy questio to CAT level questions. There were 3 easy questions taken from RS Aggrawa 3 moderately hard questions from GRE books and 4 were difficult taken from CAT preparation books. All the question were MCQ based.

we had even set a timer for the easy and moderately hard questions. We even explained the solution of each an every question on board. These questions were framed to help the students get prepared for the aptitude tests conducted by various companies coming for campu recruitement as aptitude test is preliminary step to select students. Our main aim was to make the students clear the aptitude test.
