4. **Number of Participants** : 205
5. **Student Coordinator** : Ms. Sachin George
6. **Staff Coordinator** : Ms. Vijay Lakshmi
7. **Brief Summary of the Activity/Event (in maximum 500 words):**
 - a) **Objectives** :
 - Exposure with Industrial Professionals to groom a career path.
 - Unifying Technical Reviews with the Recent Technologies.
 - Inducing and Inculcating Leadership Qualities.
 - Accessibility for Campus Placements.
 - b) **Technical Description** : Seminars on following topics were conducted during the symposium
 - **Topic 1: Impact of IT Solutions in Societal and Environment Contexts**
Highlights of the seminar: Dr. Mishra, an academically astute and highly qualified environmental scientist, was a delight to listen to. She stressed that it was time for all technically qualified professionals to work for the good of the society and solve problems faced by the common people. Citing the example of harnessing solar energy, she espoused that the required parts and sensors could be manufactured locally instead of spending a fortune in importing them. Dr. Mishra pointed out the increasing levels of pollution as a result of development, and stressed the need for a move towards sustainable sources of energy. However since such sources are costly, their use must be optimized. Various fields which have been revolutionized by information technology solutions were introduced – monitoring of environmental pollutants using RFID and WSN (real-time), health sector, travel and tourism, agriculture and business.
 - c) **Outcomes** :
 - Students got internship opportunity
 - The students were made aware on the legal aspect of computer technologies.
 - Students took up project on cyber security and blockchain technologies

 - f) **Technical Description** : Seminars on following topics were conducted during the symposium
 - Topic 1- Business Principles and Professional Ethics in Information Technology
The Keynote speaker, Mrs. Ancy Bejoy, an alumnus of Computer Engineering Department, batch of 1998, the first BE - Computer batch, is currently working as Sr. Project Manager with Credit Suisse Risk & Finance IT. With 18 years of experience in the IT industry, her domains include CAD-GIS, Medical Pacemakers, Logistics and Banking. She started her Keynote address by sharing her memories in the college as a student. The main content of her speech was Personal and Professional Ethics in the Corporate World. She focused on the need to maintain professional integrity with the help of ethics and discussed topics like insider trading, bribery, discrimination, social responsibility and confidentiality. The ethics that need to be maintained while dealing with the above mentioned topics were discussed. She also happily answered questions regarding life in the corporate world. Her talk was greatly appreciated.

The session ended with a vote of thanks given by Mrs. Shweta Tripathi. The students thereafter enjoyed the refreshments given to them. The session left an indelible mark on the students. Her thoughts were of great guidance in knowing how to deal with various kinds of situations in the real business world. The seminar

Objectives : Every year lectures by Alumni of our department are invited to give an expert lecture on any suitable topic. These lectures are arranged by the subject teachers during the lecture. The objective is to increase the interaction between the Alumni and current students. This activity also helps in providing the guidance in technical topics or in the initial stages for higher studies abroad and choosing the right career after BE. How they can prepare for competitive exams and do the necessary preparations for meeting those requirements for higher studies.

A Report on the “LOOPS-2017”

This years “LOOPS-2017” programme of Electronics & Telecommunication Engineering Department & ISF was conducted on 22nd February 2017 from 9.30 am to 12.00 pm in Seminar Hall, 4th Floor, Diploma Side, Fr. CRIT, Vashi. Total 190 people consisting of 150 UG students (SE/TE/BE EXTC), 16 PG students (First & second year), around 20 teaching faculty members, 4 lab assistants, 2 guest, and student volunteers attended the programme consisting of following technical lectures & demo & schedule:

LOOPS – 2017 Schedule Date: 22nd February 2017 (Wednesday)			
Time	Activity	Speaker	Title
9.00 Hrs	Registration		
9.30 Hrs	Lecture - 1	Dr. Patil Mukesh Professor & HOD, Dept. of Electronics and Telecommunication, Ramrao Adik Institute of Technology, Nerul, Navi Mumbai.	Fractional -order Control and its Applications
10.30 Hrs	Tea / Snack		
11.00 Hrs- 12.00 Hrs.	Lecture - 2	Dr. Rizvi Imdad Associate Professor, Terna Engineering College, Nerul, Navi Mumbai.	Introduction to Remote Sensing

Activity Report

In the academic year of 2016-2017, a total of 17 expert lectures were organized under IEI students chapter for students of second, third and final year Electrical engineering on various topics. Many of the experts were eminent personalities from Industry. The topics of talk were technical as well as non-technical. The technical talks included domain areas of Standards in Electrical Engineering, Industrial Safety, Power System Measurement, Control and Protection, Electric Vehicle, Power System Reliability, Smart Grid, Renewable Energy, Automation and many more. The non-technical talks included Ethics, Engineer and Society, Project Management etc. The summary of lectures is given below.

Sr No	Topic of Seminar	Date Duration	Resource person Designation	No. of students Attended
1.	Engineers and Society	4/03/2017 01Hr	Ms.Trisha Jaiswal Trainee engineer, ThyssenKrupp, Mumbai	74
2.	Energy Measurement in Three phase System using Data Acquisition Card	06/03/2017 01 Hr	Ms.Prajakta Pawaskar ME Student ELECT Dept, FCRIT ,Vashi	72
3.	Transmission line Project Execution	10/03/2017 01 Hr	Mr.Ravindra Kachare Project Engineer,OHTL Projects, KEC International, Saudi Arabia	74

- i. Objectives: Provide Knowledge of Smart Grid and Renewable energy
- ii. Theme: **Smart Grid and Renewable energy**
- iii. Technical Description:

The topics covered under this seminar was different types and importance of Renewable Energies and the role of microgrid and smart grid was discussed. Also the various technologies and communication protocols available for smart grids. Also the advantages of smart grid over conventional grids were discussed.

iv. Outcomes:

1. Active and immense participation by students
2. Platform for students to showcase their organization skills
3. Acquire knowledge of Smart Grid and Renewable energy.

8. Brief Summary of the Activity/Event
 - i. Objectives: Provide Knowledge of on the topic "Professional Ethics", "Standards in Electrical Engineering", "Industrial safety and fire"
 - ii. Theme: **Power system safety and Ethics**
 - iii. Technical Description:
 1. Mr Swapnil Tulsankar explained the importance of work ethics in corporate world and with his magical narration and examples the seminar was quite impressive for the students. As the work ethics will not only benefit the employers but also the employees and help them in achieving the job satisfaction. The feedback from the students was good.
 2. Ms. Neelanjana Nag started her seminar with an exhaustive list on the standards which are applicable for Electrical Engineering for all the major devices used in Electrical system design. Then the speaker went on to explain how and why the students should be aware of these standards. The session was quite informative.
 3. The speaker Mr.N.N.Pisharody has many years of experience in this field of industrial safety. He started his seminar on the devices used for safety, their ratings and standards. Then on, he enlightened the audience on how to use them effectively in their design and take care of the safety of living beings, society and environment.
